**baby box: first striated space experienced by human**

striated:  
man made

A black and white aerial photograph of New York City, showing a dense urban landscape with numerous skyscrapers. The Chrysler Building is the central focus, standing out with its distinctive Art Deco architecture and spire. The Hudson River is visible on the right side of the image, with several bridges crossing it. The overall scene captures the vastness and verticality of the city.

striated:  
city
